Product Specifications

Model Name : CentreCOM FS709/CentreCOM FS709FC

Power unit

Rated input frequency	50/60Hz
Rated input voltage	100-240VAC
Rated input current	0.3A

Environmental conditions

Operating temperature	0 to 40˚C
Humidity	Less than 80% (No condensing)

External dimensions

305 (W) x 182 (D) x 38 (H)mm

Weight

1.5kg

Compatible standards

Network	IEEE 802.3, IEEE 802.3u
Safety	UL1950, CSA 22.2 No.950
EMI	VCCI Class A

Note:

1. This unit is considered desktop or rack-mounted.

2. Unplug power cord before installing the product, cabling, or transportation.

3. For rack-mounted units, if installed in a closed or multi-unit rack assembly, the operating ambient temperature of the rack environment may be greater than room ambient. Consider installing the equipment in an environment compatible with maximum operating temperature 40˚C.

   Mounting of the equipment in the rack should be such that a hazardous condition is not achieved due to uneven mechanical loading.

   Reliable earthing of rack-mounted equipment should be maintained. Particular attention should be given to supply connections other than direct connections to the branch circuit.

4. Proper ventilation of air flow after installation. Make sure of grounding of the equipment installed. Do not overload branch circuit.
