Product Specifications

Model Name : CentreCOM FS716XJ

Power unit

Rated input frequency	50/60Hz
Rated input voltage	100-240VAC
Rated input current	0.5A

Environmental conditions

Operating temperature	0 to 40˚C
Humidity	Less than 80% (No condensing)

External dimensions

305 (W) x 182 (D) x 38 (H)mm

Weight

1.7kg

Compatible standards

Network	IEEE 802.3, IEEE 802.3u, IEEE802.3x
Safety	UL1950
EMI	VCCI Class B

Note:

1. This unit is considered desktop.

2. Unplug power cord before installing the product, cabling, or transportation.

3. Consider installing the equipment in an environment compatible with maximum operating temperature 40˚C.

4. Proper ventilation of air flow after installation. Make sure of grounding of the equipment installed. Do not overload branch circuit.
