

Product Specifications

Model Name : CentreCOM RS710TXJ/CentreCOM RS718TXJ

Power unit

Rated input frequency	50/60Hz
Rated input voltage	100-240VAC
Rated input current	CentreCOM RS710TXJ: 0.3A CentreCOM RS718TXJ: 0.4A

Environmental conditions

Operating temperature	0 to 40°C
Humidity	Less than 80% (No condensing)

External dimensions

CentreCOM RS710TXJ: 263(W) x 179(D) x 38(H)mm
CentreCOM RS718TXJ: 305(W) x 182(D) x 38(H)mm

Weight

CentreCOM RS710TXJ: 1300g
CentreCOM RS718TXJ: 1800g

Compatible standards

Network	IEEE 802.3, IEEE 802.3u
Safety	UL1950, CSA C22.2 No.950
EMI	VCCI Class A

Note:

1. This unit is considered desktop.
2. Unplug power cord before installing the product, cabling, or transportation.
3. Consider installing the equipment in an environment compatible with maximum operating temperature 40°C.
4. Proper ventilation of air flow after installation. Make sure of grounding of the equipment installed. Do not overload branch circuit.
