Product Specifications

Model Name : CentreCOM RS726TXR

Power unit

Rated input frequency	50/60Hz
Rated input voltage	100-240VAC
Rated input current	0.7A

Environmental conditions

Operating temperature	0 to 40˚C
Humidity	Less than 80% (No condensing)

External dimensions

432(W) x 250(D) x 44(H)mm

Weight

3.0kg

Compatible standards

Network	IEEE 802.3, IEEE 802.3u
Safety	UL1950, CSA C22.2 No.950
EMI	VCCI Class A

Note:

1. This unit is considered desktop.
2. Unplug power cord before installing the product, cabling, or transportation.
3. Consider installing the equipment in an environment compatible with maximum operating temperature 40˚C.
4. Proper ventilation of air flow after installation. Make sure of grounding of the equipment installed. Do not overload branch circuit.
